ELECTRIC FIRES & STOVES
It’s never been so easy to get the warm inviting atmosphere of a real flame fire with all the convenience, versatility and efficiency of electricity.

Using the latest Flame-Effect Technology, Gazco has created a beautiful range of fires and stoves that provide a versatile and stunning focal point for any home – and all without the need for a chimney!

Whether you want to achieve a modern, contemporary look or a more classic, traditional interior, this brochure will help you make the perfect choice, whatever your style or budget.
When you choose Gazco, quality and technology are assured. From contemporary hang on the wall fires to traditional stoves, Gazco are committed to creating the ultimate in realistic electric flame effects.

Our research and development laboratories are amongst the most advanced in the industry, ensuring that the very latest innovations are incorporated into our products.

Gazco is part of the Stovax Group who offer a prestigious product range which includes everything from traditional to the ultra-contemporary in a wide array of styles and sizes, so whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range to add the perfect warmth and character to your home. Both Gazco and Stovax offer solid fuel and gas versions of several of the fires and stoves in this brochure. Full details of the Stovax Group’s range of products can be found at www.stovax.com

Gazco is an ISO9001 accredited company. Our rigorous quality control system ensures that all our appliances comply with British Safety Standards as well as stringent European regulations. All fires and stoves in the brochure are CE marked. This means they have been independently tested to exacting European standards.

Warranty Information
Your Gazco retailer will provide you with a Two Year Extended Warranty for your new electric stove or fire, providing it is registered with Gazco. Please note, this warranty excludes certain consumable parts. Stoves and Fires purchased outside of Gazco’s Expert Retailer Network will carry a standard One Year Warranty. Full warranty details, terms and conditions are available at www.gazco.com.
We take great care to ensure that our stoves and fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room) and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Gazco fires and stoves purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at www.gazco.com.
Gazco’s VeriFlame™ Technology enables you to switch between heat settings and even adjust the brightness of the flames to create the exact atmosphere required, from the comfort of your favourite armchair, using the remote control.
06  WALL MOUNTED FIRES
STUDIO ELECTRIC SIZES

The outstanding Studio Electric range is available in a choice of three landscape and one portrait size. With a choice of contemporary styles and simple ‘hang on the wall’ installation, these advanced technology electric fires can add stylish warmth to almost any room in your home with the ultimate ease. All Studio Electric fires benefit from remote operation and feature an additional thermostatic control.

**Studio 1**

The highly efficient Studio 1 is the most compact landscape model in the range, making it the perfect choice when you are looking for a dramatic focal point in a smaller interior. As with all Gazco Electric fires, you can tailor the atmosphere to suit your mood or occasion. On the Studio 1 you can vary the heat output between 0.9kW or 1.8kW, and you even have the option to enjoy the effect of the fire without the heat at all.

**Studio 2**

For effortless style and maximum impact, opt for a Studio 2 Electric fire. The larger dimensions make an eye-catching focal point on larger walls and accentuate the highly realistic LED flame effect. The Studio’s remote provides complete control over the heat and flame settings from your fingertips. With a variable heat output between 0.9kW or 1.8kW, and the option of running just the flame effect by itself, the Studio 2 offers complete versatility for your home.

**Studio 3**

The largest fire in the range the Studio 3 offers not only a truly panoramic view of the highly realistic LED flame effect but also provides you with a maximum heat output of 1.8kW. The larger dimensions make the Studio 3 particularly suited to living spaces with more substantial proportions. Additionally, during the warmer months, you can enjoy the enticing flame effect without the heat.

**Studio 22**

The Studio 22 adds instant presence and vertical definition to any modern interior. With its unusual yet highly attractive portrait form, a Studio 22 Electric is perfect for the contemporary living room but equally suitable for creating a talking point in the dining room or making a designer statement in the study or office. On milder evenings, just sit back and enjoy the flickering flames without the heat or bring some cosy warmth to your room with a variable 0.45kW - 0.90kW heat output.
Sleek, chic and contemporary, the Studio Electric Glass offers a distinctive focal point that will complement any stylish interior. Available in four sizes, there’s a Studio Electric Glass to offer instant striking impact, whatever your room size.

Easy to fit, this designer fire can simply be hung on the wall and its shallow depth means it will only protrude minimally into your room.

A stunning flame-effect with 4 levels of brightness is available at the touch of a button on your remote control. You can alter the heat output to suit your requirements, or you can even enjoy the stunning LED flame-effects with no heat at all!

Gazco’s range of Studio Electric Fires has also been uniquely developed so that the fan operation controls both the heat output and flame-effect simultaneously, offering not only product efficiency, but, also one of the quietest fan-assisted electric fires available.

Studio Electric 1 Glass
The stylish Studio Electric Verve has a beautifully curved frame in a choice of four stylish finishes, making a striking designer statement to be appreciated from all angles. Whether it’s a luxurious living room or a stylish study, the hang-on-the-wall Studio Electric Verve is incredibly versatile with three landscape sizes and a portrait option.

This designer fire heats your room on command from your remote control. With two adjustable heat settings and four flame brightness levels, you can create the perfect atmosphere for every situation. Simply plug in your Studio Electric Verve and instantly enjoy the inviting glow created by our unique LED flame-effect technology.

The Studio Electric Verve comes with a removable White Stone fuel bed effect, so that you can select a minimalist contemporary effect without the fuel bed or a more natural look with the White Stones.

With a sophisticated two-part design, the new E-Motiv frame features a sleek glass front laid on top of a stylish timber background to create a layered and thoroughly distinctive look.

Each layer can be tailored with your choice of finish. The front is available in either black or white glass whilst a choice of real walnut or oak veneer finishes can be selected for the background. Each option is fully compatible so you can choose your preferred combination of glass colour and wood finish to best suit your interior décor.

The E-Motiv is available for all four sizes of the Studio Electric including the portrait Studio Electric 22. With alluring LED flame effects, the Studio Electric E-Motiv will create a warming ambience and eye-catching aesthetics with the ultimate convenience offered by a high quality electric fire.
Studio Electric 1 E-Motiv with Black Glass and Medium Oak
Studio Electric | Evolve in Walnut with Polished Steel infills
Studio Electric Evolve

The Evolve is a stylish two-part frame that features a subtly curving front in a choice of Walnut or Oak finishes bordered by a sophisticated black steel rear.

The Evolve comes with contrasting Brushed Steel infills which fit into recesses on either side of the front of the frame, however the Studio Evolve can be further styled to your own décor by choosing from three additional infill options; White or Black finished Steel or Polished Steel. So you can alter the look of your fire whenever you want!

† Wood is a natural material. There will be variations in shading and occasionally knots in the timbers used. For more detailed information please see page 58.

- Studio 22: 640 x 1200 x 144
The Designio2 Glass frame has smart, reflective black surfaces with subtle detailing and clean lines. It is a sophisticated frame that complements the landscape shape of the Riva2 670 Electric and its simple, chic design will be at home in a wide array of interiors.

The sleek finish of the Designio2 Glass naturally forms an elegant frame for the enticing flame effect and highly realistic logs for a fireplace with the wow-factor.

For a streamlined aesthetic the Riva2 670 Electric can be slotted into a pre-constructed hole. Alternatively you can use the optional wall mounting box to hang your fire on the wall.

Another installation possibility for the Designio2 Glass is to mount the fire onto a hearth for a more traditional fireplace setting.

Riva2 670 Electric Evoke Steel with Graphite front & Graphite rear
The Evoke Steel is a stunning, two-part design that blends expertly into both traditional and more modern interiors. The front face of this frame comes in a stylish Graphite finish with the option for customisation in one of three exciting additional colour choices.

The attractive bevelled rear is left in Graphite to perfectly complement the standard finish on the front or form a contrasting border to any of the bold colour choices. With variable flame effect and heating settings, and the option to enjoy the flames without any heat at all, the Riva2 Evoke Steel will be as impacting in its functionality as it is in its designer aesthetics.

30 | INSET FIRES

Studio Electric Inset 105
**Electric Inset Fires Sizes**

**Studio Electric Inset 80**
It’s hard not to warm to the compact, landscape form of the Studio Inset 80. This fire provides all the dramatic presence of a cassette fire, with the proportions to suit small to medium rooms. Created using the latest technology, the Studio Electric Inset 80 has two heat settings from 1 – 2kW and variable LED flame brightness settings. All of its features are easily controlled from the comfort of your sofa, using the remote control.

**Studio Electric Inset 105**
The longer lines of the Studio Inset 105 make a stylish designer statement in any interior. The Studio Inset 105 has two heat settings, from 1–2kW and benefits from a beautiful LED flame effect, all controlled by the easy to use remote. With no need for a chimney, the Gazco Electric fire ranges can be used to add contemporary style to almost any room in your house.

**Studio Electric Inset 150**
The Studio Electric Inset 150 is the biggest landscape fire in the range and therefore more suited to larger interiors. The 1-2kW heat settings, LED flame-effect and variable brightness levels are all controlled directly from your remote so you can just sit back and appreciate this stunning fire with complete ease. With its grand proportions and stunning frameless design, the Studio Electric Inset 150 makes a truly impressive statement.

**Riva2 Electric 55**
The Riva2 Electric 55 has a striking square design and a flame visual to match. Designed with a stunning LED flame-effect, variable brightness and 0.5kW - 1.0kW heat settings, the Riva2 Electric 55 blends form and function, controlling it all with the remote included.

**Riva2 Electric 70**
The Riva2 Electric 70 has a sleek and contemporary virtually square format to extend your possibilities. The frameless design emphasises the highly realistic flame effect which has variable brightness levels.

The Riva2 Electric 70 also benefits from being compatible with Gazco’s exquisite collection of Natural Stone Mantels.
The Studio Electric Inset’s frameless design creates a strikingly contemporary and minimalist look. Available in three different sizes and installed completely flush with the wall, the Studio Electric Inset has the versatility to complement a wide range of stylish room designs.

Relax in your favourite arm chair and enjoy heat at the touch of a button. Designed for ultimate ease of use, you can control everything from the remote control included. With two heat settings from 1 - 2kW, the Studio Electric Inset fires also benefit from variable LED flame-effects and brightness to suit your mood or ambiance.

On warmer evenings you can enjoy the fire without any additional warmth as the LED flame effect can be cleverly operated independently of the heater.

For more detailed information please see page 59.
The Riva2 Electric has two square or virtually square designs but with the same clean, contemporary lines as the Studio Inset. Whatever your choice you can enjoy a beautiful flame picture through a large glass window - the ultimate modern centrepiece.

Featuring one touch heat, two adjustable heat settings and variable brightness, the Riva2 is so versatile that you can create a bespoke atmosphere for any occasion. Alternatively, you can switch off the heat and simply enjoy the authentic atmosphere created by our unique LED flame-effect technology.

You can further increase your design possibilities by pairing your Riva2 Electric 70 with a selection of timeless Riva2 Natural Stone Mantels as shown on pages 36 - 37.

---

**Heat Output**

Riva2 Electric 70 with Victorian Corbel Mantel in Limestone
Logic Electric Box Profil with Highlight Polished fret & Brushed Steel effect frame.

Also shown: Art Deco mantel in white available from Stovax.
The Logic Electric combines understated elegance with state-of-the-art modern technology. Designed to fit into a standard fireplace opening or a 3” rebated mantel with slip, it offers easy installation, ease of use and a fantastic log effect flame visual. Additionally, by using the optional spacer frame, your Logic Electric fire can even be fitted directly onto a flat wall.

The Logic Electric Box Profil takes its design origins from the Arts movement in the early twentieth century and the evocative style has influenced this contemporary fire with a choice of eleven frame and fret combinations.

A choice of 2 heat settings and 4 levels of flame brightness are all controlled from the comfort of your sofa using the remote. You can even sit back and simply enjoy the warm ambiance created by Gazco’s highly realistic flame-effect technology with no heat at all. All Logic Electric fires also benefit from an additional thermostatic control.

Logic Electric Fusion in Graphite with White Stone fuel effect
At the cutting edge of modern design, the strong lines, slim profile and sleek glass of the new Logic Electric Futura highlight its innovative styling. The highly reflective 5mm black glass finish is immediately impressive yet not overpowering in smaller spaces and, by incorporating the white stone or the upgradable coloured glass bead fuel effects, the Futura makes a breathtaking centrepiece for your home - even when the fire is off!

As a member of the Logic Electric family, the Futura benefits from a choice of 2 heat settings and 4 levels of flame brightness that are all controlled from the remote control. Additionally, on those warmer Summer evenings you can enjoy the enticing flame visual without the heat, making it an electric fire for all seasons!

The Marlborough Electric offers you an amazingly realistic log-effect fire at the touch of a button in two different sizes. At its heart is Gazco’s unique VeriFlame™ technology which allows you to choose from two heat settings that can both be thermostatically controlled*; three brightness levels, plus the additional option for a blue flame-effect on the high setting so you can match your mood exactly.

You can even turn off the heat and just watch the stunning flame-effects.

Gazco Electric Stoves simply plug into a 13amp socket, so are particularly suited for conservatories, bedrooms or home study, in fact any room without a chimney.

For more detailed information please see page 61.

*The thermostat is controlled manually from the stove.
Medium Marlborough Electric
With a stunning cast iron door and heavy gauge steel body, the Stockton Electric combines the classic looks of a woodburning stove with the ease and convenience of Gazco’s unique VeriFlame™ technology.

This means you can enjoy two heat settings that can be thermostatically controlled*, three flame intensity levels, plus the additional option for a blue flame effect on the high setting to create a remarkably authentic log-effect fire - a superb focal point for any room. The fan heater is discreetly hidden beneath the stove and can be adjusted by remote control.

You can choose from the Stockton Small, Stockton 5 or the Stockton Medium.

Finish  Fuel Bed  Heat Output  Size w x h x d (mm)  Efficiency
Matt Black  Log effect  1.0kW - 2.0kW (or flame effect only)  Small: 422 x 525 x 340  99%

For more detailed information please see page 62.

*The thermostat is controlled manually from the stove.
Huntingdon 30 Electric in Matt Black
The Electric version of our ever popular Huntingdon 30 gas stove has exquisitely fine castings and a beautiful tracery door that are brought alive by our VeriFlame™ technology. The Huntingdon 30 Electric provides you with two heat settings, three flame brightness levels, plus the additional option for a blue flame effect on the high setting.

Your choice of fire is then set against the highly realistic fuel bed and individually hand painted ‘logs’, mirroring the look of a real woodburning stove.

Operation of the Huntingdon 30 Electric stove is simple. The remote gives you full control* of the heat and ‘flame’ settings from the comfort of your armchair. Alternatively, you can even switch off the heat and just enjoy the ambiance created by the flickering flame-effect.

**Colour Choice**
- Paint Finishes
  - Matt Black
  - Matt Ivory
- Enamel Finishes
  - Ivory

**Fuel Bed**
- Log effect

**Heat Output**
- 1.0kW - 2.0kW (or flame effect only)

**Size w x h x d (mm)**
- 560 x 592 x 447

**Efficiency**
- 99%

For more detailed information please see page 61.

*The thermostat is controlled manually from the stove
Ashdon Electric in Matt Black
Gazco’s popular Electric Ashdon stove features our unique VeriFlame™ technology, offering a superbly realistic log-effect fire with three different brightness intensities, with an additional option for a blue flame effect on the high setting plus two heat settings that can both be thermostatically controlled. Quite simply, it means that you can enjoy all the ambience of a genuine cast iron wood burner with the modern convenience of electric.

From the hand painted log fuel bed to the lustrous enamel and painted finishes, this electric stove exudes style and quality to make an impressive focal point in any home.

Operation is simple. The remote control allows for easy adjustment between two heat settings* and, on warmer evenings, you can even turn off the heat, relaxing in the cozy atmosphere created by the stunning flame-effect but without the additional heat.

**Finish Choice**

Medium Electric Steel Manhattan in Brushed Stainless Steel
Contemporary, convenient and comforting, the small and medium Steel Manhattan Electric both provide clean lines and contemporary styling, featuring a contrasting cast iron grill plate in the stove top.

With a highly realistic log-effect fire and up to 2kW of heat, you can achieve the perfect ambiance, all at the press of a button on your remote control.*

Both versions benefit from our unique VeriFlame™ technology which offers you three different glow intensities and even an additional blue flame option on the high setting.

*The thermostat is controlled manually from the stove.
The Riva Vision is a contemporary, electric stove that comes in three sizes: Small, Midi and Medium; each sporting a highly reflective black glass door, integral glass plinth, black glass top plate and contrasting stainless steel detailing for a clean stylish look.

Incorporating an eye-catching flame effect created using Gazco’s unique Veriflame™ technology, the Riva Vision’s alluring visuals glow over a realistic hand painted log-effect fuel bed to give all the ambiance and depth of a real log fire.

The three brightness levels can be easily altered with just the touch of a button on the remote control* to create a look to suit your mood. Furthermore, each level is available with or without the 1-2kW of heat output, so you can enjoy the ambiance created by your electric stove whatever the season!

To increase your interior design possibilities, you can enhance your Riva Vision by choosing from one of ten stylish Riva Stove Benches as shown on page 62.
